**CLOSING KEYNOTE ADDRESS**

3rd International Women's Peace Conference

Dallas, Texas • July 13, 2007

This CD containing 19 tracks is a recording of Jean's Closing Keynote address at the 3rd International Women's Peace Conference in Dallas, TX on July 13, 2007. This is the inspiring call to action to "gather the women and save the world" that was interrupted by applause and got a standing ovation. Jean spoke spontaneously, quietly and yet passionately to women in the audience from all over the world. Listening to the CD, it is as if Jean is speaking directly to the individual listener as well as addressing a large audience. This is a CD to listen to and share for information and inspiration. It can be the seed idea that leads to the forming more circles with a spiritual center.
